Education

Rajasthan Institute of Engineering and Technology

B.Tech in Engineering (Computer Science and Engineering)

Coursework in Physics , Computer Science, Engineering Design Seminar

Overall Percentage : 60%

Design Project: Facial recognition attendance based system.

SHM College of Science

Overall Percentage : 55%

Jaipur ,Rajasthan

September 2020

Kalyan,Maharashtra

June 2016

All Saints High School(CBSE)

Overall Percentage : 60%

Bhiwandi, Maharashtra

June 2014

Experience

Bepec

Associate Data Scientist Intern

Hyderabad ,Telangana

October2020 – February 2021

Involved in designing various internal projects within the company such as automated chatbots using NLP and interactive Tableau Dashboards.

Project: Customer Churn Classification Using non-parametric models

- Major goal behind undertaking this project Majority of issue are miscommunicated and service executives resolve wrong issues rather than resolving right one. So, if we are able to build a churn detection for our issue description based on our historical Data.

Brand Beavers

Research Experience for Undergraduates Intern

Project: Multi-platform Websites

Andheri ,Maharashtra

June – Aug 2019

Skills

Technology: **Programming Language-** Python and C++

Cloud platform- AWS

Misc- Tableau -<https://public.tableau.com/app/profile/sameer.khan5479#!/?newProfile=&activeTab=0>

Anaconda, JupyterNotebook , Spyder IDE, VS Code

Machine learning- KNN, Logistic & linear regression, naïve bayes, decision SVM, randomforest, NLP and clustering

OS- Mac os and Linux

Other Skills: Having the knowledge of Agile Software Development Lifecycle

Poses the quality of a good story teller.
